

**A list of the issues raised during
International Conservation Conferences 2004-2018**

Roman numerals indicate session number, Arabic numerals indicate page numbers

I. Organic materials:

1. Concrete
 - Aleksandra Gralińska-Grubecka: Corrosion processes and preventive maintenance of reinforced concrete sculptures VI,40 -48
2. Amber
 - Maria Rudy: Cooperation of conservators-technologists of various specialties in the process of saving an amber museum object VII,136 - 153
3. Wood
 - Leszek Babiński: Sweet maintenance of wet excavated wood - option, alternative or necessity I,7 – 22
 - Alicja Kuberka, Stanisław Dzięgielewski: *Camponotus ligniperda* – hazard for historical timber constructions I,23 – 30
 - Wojciech Kokociński: Durability of wood products I,41 – 49
 - Adam Krajewski: The threat to Polish museum collections - insects I,50 – 70
 - Magdalena Zborowska, Bogusława Waliszewska: Chemical analysis in excavated wood testing III,77 – 90
 - Wojciech Kokociński, Alicja Kuberka: Use of pilodin for strength assessment of historic buildings and wooden structures V,311 – 317
 - Grzegorz Cofta: Specificity of historical wooden objects in the open-air museum, protected by impregnations VI,9 – 21
 - Bartłomiej Mazela, Magdalena Broda: Use of alkoxy silanes in the preservation of archaeological wood VI,137 – 142
 - Magdalena Broda, Bartłomiej Mazela: Assessment of the state of preservation of archaeological wood extracted from Lake Lednickie VI,143 -152
 - Magdalena Broda, Bartłomiej Mazela: Cultural heritage - search for modern means and methods of conservation of historical wood – an interdisciplinary research project VII,99 -111
 - Magdalena Broda, Bartłomiej Mazela: Use of methyltrimethoxysilane in stabilizing wet archaeological timber VII,112 – 122
 - Paulina Kryg: "Cultural heritage..." project - conservation issues of open-air objects VII,123 -135
 - Maria Rudy: Organic matter in objects of artistic craftsmanship - their conservation and restoration VIII,72 -96
 - Paulina Kryg, Bartłomiej Mazela, Magdalena Broda: Dimensional stability of the restoration masses in historical wood based on wood dust VIII,165 - 171
 - Grzegorz Cofta, Patrycja Kwaśniewska-Sip: Use of caffeine in protection of antique wood against biodegradation VIII,186 - 192
 - Grzegorz Cofta: Issues related to the durability of small wooden objects exposed in the open air VIII,216 – 221
4. Ostrich egg
 - Maria Rudy: Organic matter in objects of artistic craftsmanship - their conservation and restoration VIII,72 -96

5. Silk
 - Agnieszka Szygendowska: The fragile beauty of silk. Problems related to displaying silk cloth garments VII,215 - 223
6. Stone
 - Sabina Figurniak: Problems of conservation of stone monuments in the outdoor exhibition III,97 – 103
 - Maria Rudy: History of museum stone and ceramic objects; their significance for contemporary research and conservation work VI,209 – 223
 - Maksymilian Kapalski: The importance of conservation in the creation of a museum exhibit - a case study of the stone sculpture of the Madonna from the Old Market in Cieszyn VII,243 -247
7. Ivory
 - Piotr Niemcewicz: Technological and conservation issues of ivory artefacts VIII,97 -106
8. Palm leaves
 - Deepakshi Sharma: Indigenous traditional material and techniques of Palm leaf manuscripts in India and its relevance. VIII,138 -154
9. Furniture
 - Janusz Krawczyk: Historical substance or form? Introduction to considerations of the authenticity of antique furniture I,71 – 78
 - Stanisław Dzięgielewski, Krzysztof Grupka: IT system for recording historical furniture III,49 – 62
 - Stanisław Dzięgielewski, Julia Lange: Studies on methods of restoration of historical upholstered furniture IV,191 – 200
 - Julia Lange: Selected issues of conservation and restoration of historical furniture V,35 -42
 - Julia Lange: Origin and development of furniture craft in Mazovia until the 19th c. V,43 – 48
 - Julia Lange: Methods of identifying historical furniture VI,275 – 280
 - Diana Jędrysek-Skotnicka: Sofa, armchair, chair - conservation of upholstery fabrics from the collection of the National Museum in Wrocław VII,59 -66
10. Metal
 - Marek Kołyszko: Maintenance of iron objects displayed in the open IV,80 – 90
 - Aleksandra Rowińska: Problems of stability of iron archaeological monuments - a case study of the collection of the State Archaeological Museum in Warsaw VII,208 - 214
11. Paper
 - Adam Krajewski: The threat to Polish museum collections - insects I,50 – 70
 - Grażyna Musiał: Evaluation of the destruction of the collection of the Print Room of the National Museum in Poznań and development of a long-term conservation and restoration project of this collection I,79 - 88
 - Hanna Nowicka: Restoration of cartographic collections in the National Museum of Agriculture in Szreniawa I,89 - 98
 - Przemysław Wojciechowski: Aims and tasks of the government program: *Acid paper - mass rescue of endangered Polish library and archive resources* I,99 – 114

- Anna Jaszczur, Izabela Modzelewska, Agnieszka Kokoszka: Effects of the addition of starch and resinous adhesive on the biodegradability of paper products made from bleached deciduous sulphate pulp IV,201 – 209
- Markéta Šimčíková, Antonín Šimčík: Possibilities of insecticide methods for library and museum collections with the use of a multifunctional vacuum chamber and oxygenless box IV,210 -219
- Marek Kołyszko, Dariusz Subocz: Archaeological paper - conservation and examples of museum exhibition systems V,77 -84
- Izabela Modzelewska, Emil Patelski, Agata Kujaszewska: Aspects of the degradation process in recycled papers with the addition of colour pigments under the influence of UV radiation and temperature V,131 – 138
- Joanna Karbowska-Berent, Ludmiła Czajkowska-Wagner: Possibilities of using essential oils to protect paper objects against microorganisms VI,32 – 39
- Jolanta Czuczko, Aleksandra Cybul: Gellan gels as an alternative in the cleansing of historical objects on paper grounds VII,84 -98
- Maria Rudy: Organic matter in objects of artistic craftsmanship - their conservation and restoration VIII,72 -96
- Izabela Kiełek, Dariusz Subocz: Letters of children from the collection of the Polish mission in Orchard Lake VIII,155 -162
- Adam Wójciak, Aleksandra Kwatkowska, Renata Wojech: Deacidification of paper with alcoholic dispersion of nanoparticles of magnesium compounds: assessment of the possibility of acid neutralization VIII,178 -185

12. Crop plants

- Katarzyna Szrama, Maria Wojterska, Włodzimierz Rączkowski: Archaeophytes and relics of old crops in historic rural settings V,318 -329

13. Leather

- Adam Krajewski: The threat to Polish museum collections - insects I,50 – 70
- Dorota Jutrzenka-Supryn: An historical object or a utility item? Horse-riding harness - selected conservation issues VII,67 -83

14. Textiles

- Aldona Kłapouch, Małgorzata Malinowska: Maintenance of Wielkopolska tulle bonnets I,31- 40
- Adam Krajewski: The threat to Polish museum collections - insects I,50 – 70
- Margaret Dobbie: Mounting Costume for display in Riverside Museum. IV,158 – 165
- Diana Jędrysek: Preservation of textile coatings - shrouds of Blessed Czesław's skull, coming from the box reliquary from the Dominican Church in Wrocław. Another stage of the study project on the patron saint of Wrocław V,173 – 178
- Maria Cybulska: To show the invisible - virtual reconstructions of historical and archaeological textiles for conservation and exhibition purposes V,245 - 254
- Małgorzata Kwarciańska: Woolen cape - threats, destruction and conservation of the exhibit from the collection of the Radom Countryside Museum VI,22 – 32
- Maria Cybulska: Methods of structural, physical and chemical analysis of historical textiles for conservation purposes VI,127 -136

- Diana Jędrysek: Conservation and exhibition problems related to the exhibition "Old Children's Fashion of the 17th - 20th Centuries" organized by the National Museum in Wrocław and The Museum of Copper in Legnica VI,251 – 256
- Diana Jędrysek-Skotnicka: Sofa, armchair, chair - conservation of upholstery fabrics from the collection of the National Museum in Wrocław VII,59 -66
- Agnieszka Szygendowska: The fragile beauty of silk. Problems related to displaying silk cloth garments VII,215 – 223
- Dorota Jutrzenka-Supryn, Jolanta Czuczko, Katarzyna Zapolska: A unnoticed decor "detail". A conservation and restoration project of jacquard wall fabrics from a bourgeois villa from the early 20th c. VIII,119 -137

15. Wicker

- Jędrzej Stępak: From nature to architecture VII,224 -232
- Andrzej Chwaliński: Wickerwork forms in the space of the Museum of Wickerwork and Hop Cultivation in Nowy Tomyśl - conservation, storage and registration VII,232 -242

16. Wax

- Maria Rudy: Organic matter in objects of artistic craftsmanship - their conservation and restoration VIII,72 -96

II. Ethnographic objects:

- Karolina Furykiewicz: Ethnographic objects – problems with storage, transport and protection of atypical items VII,154 - 161

III. Technical objects:

- Wojciech Krugielka: Problems related to the preservation and maintenance of deposits consisting of technical objects VIII,39 -44

1. Barges

- Stanisław Januszewski: HP "Nadbor" – a living museum? IV,135 – 157
- Stanisław Januszewski: Regeneration of a historic freight barge VII,296 - 308

2. Farm traction engines

- Tomasz Dzikowski: Collections of SAM agricultural tractors - maintenance, repairs and start-up of exhibits. Some theories and practical conclusions II,105 – 118
- Damian Budzyna, Krzysztof Szaj: Regeneration of a Lanz Bulldog HR2 – possibilities and limitations IV,111 -114
- Tomasz Dzikowski: Agricultural, industrial and automotive machinery - between a destruct and a demonstration of work IV,179 – 190
- Janusz Grzelak: Mobile technical monuments - vehicles, tractors, engines and the application of "conservation principles" and legislation VII,309 – 319
- Rafał Rosolski: Various aspects of carrying out demonstrations using historical agricultural machinery VIII,246 - 250

3. Passenger elevators

- Jan Gustaw Jurkiewicz: "Beautiful machine" - the only active steam hoisting machine of its kind in Europe II,123 -128

4. Rails

- Sindhuri Aparna, Deepakshi Sharma: Travels in the past: Collection and Display at National Rail Museum, New Delhi. VIII,57 – 65

- Patryk Nisiewicz: Railway flyover in Gorzów Wielkopolski on the route of the Royal Eastern Railway as an active monument of technology improving vehicular and pedestrian traffic VIII,235 -245
 - Mateusz Jüngst, Wojciech Sawczuk: Rational management of a museum railway - a case study of the Środa County Railway VIII,251 - 264
5. Field rail
- Waclaw Gidaszewski: Narrow-gauge railway in the Slovak Agricultural Museum in Nitra II,76 -78
6. Steam engines
- Romuald Klawe: Problems related to the renovation of large-size exhibits - a case study of a steam locomobile from the Musuem in Szreniawa collection II,119 – 122
7. Locomotives
- Andrew Howe, Jacek Wikło: Maintenance of large-sized technical monuments from the collection of the Glasgow Museum of Transport IV,166 – 178
 - Maciej Mądry: Forms of industrial heritage protection - a case study of the Museum of Industry and Railways in Silesia VI,117 - 126
8. Boats, yachts
- Stanisław Januszewski: The legacy of the River Oder - with a view to the future II, 15 – 26
 - Irena Jagielska: Maintenance and protection of boats in the Central Maritime Museum in Gdańsk II,59 -64
 - Irena Rodzik: Problems with the conservation of a pre-war *Kumka IV* yacht II,65 – 69
9. Farm machinery
- Beata Wiczorek: Methods and means used in the conservation of technical monuments in the Opole Countryside Museum - a case study of the permanent exhibit of farm machinery II,95 – 101
 - Tomasz Dzikowski: Collections of SAM agricultural tractors - maintenance, repairs and start-up of exhibits. Some theories and practical conclusions II,105 – 118
 - Romuald Klawe: Problems related to the renovation of large-size exhibits - a case study of a steam locomobile from the Musuem in Szreniawa collection II,119 – 122
 - Tomasz Dzikowski: Agricultural, industrial and automotive machinery - between a destruct and a demonstration of work IV,179 – 190
 - Rafał Rosolski: Various aspects of carrying out demonstrations using historical agricultural machinery VIII,246 - 250
10. Motorcycles
- Łukasz Rymaniak: Regeneration of K-750 motorcycle IV,123 -134
 - Wojciech Krugielka: What does renovation of a motor vehicle involve - its scope and course VII,320 – 326
 - Piotr Leszczyński: Hopeless cases - to save or not to save? VIII,225 -234
11. Automotive industry
- Jerzy Jasiuk, Piotr Mady: Conservation of historical vehicles IV,75 – 79

- Dariusz Starkowski, Wiesław Zwierzycki, Łukasz Wojciechowski: Selected problems and methods of corrosion prevention on the basis of road transport vehicles VI,61 -87
 - Piotr Pluskowski: Modern technologies in the renovation of historic vehicles VI,153 - 165
 - Waclaw Hepner: Conservation of technical destructs in the automotive museum VI,166 – 175
 - Waclaw Hepner: Interactive automotive museum VII,333 -337
12. Horse-drawn carriages
- Kaarel Vissel: Problems of objects conservation and storing in Estonian Agricultural Museum V,299 - 303
13. Cars
- Jerzy Jasiuk, Piotr Mady: Conservation of historical vehicles IV,75 – 79
 - Piotr Leszczyński: Hopeless cases - to save or not to save? VIII,225 -234
14. Airplanes
- Krzysztof Mroczkowski: Conservation of historical aircraft from World War I - a case study of a LFG Roland D VIIb II,79 – 85
 - Wiesław Pochylski: Conservation of operational or decommissioned aircraft II,86 – 94
15. Combustion engines
- Krzysztof Wisłocki: Outline of the history of internal combustion engines from around the 1st century B.C. to the early 20th century IV,91 – 106
 - Piotr Sworzeń: Problems with the maintenance of historical machines V,49 – 69
 - Janusz Grzelak: Condition of museum objects as a basis for commissioning or static exhibition of machines, vehicles and engines V,152 – 157
 - John Messner: The murmur of a running engine, i.e. hazards, concepts, problems and solutions for working machines and vehicles in the museum context V,218 – 228
 - Janusz Grzelak: Mobile technical monuments - vehicles, tractors, engines and the application of "conservation principles" and legislation VII,309 - 319
16. Ships
- Stanisław Januszewski: The legacy of the Oder - with a view to the future II,15 – 26
 - Tadeusz Kłodowski: Students' science movement around the historic ships from the River Oder II, 49 -58
 - M.A. Rebecca Jackson-Hunt: Conservation and Re-Display of Ship Models at Glasgow Museums. Maintenance and re-display of the ship model collection at Glasgow Museums IV,43 -53
 - Irena Jagielska, Irena Rodzik: 35 years of experience in conservation of wooden wrecks from the Baltic Sea IV,53 -61
 - Stanisław Januszewski: HP “Nadbor” – a living museum? IV,135 – 157
 - Davina Kuh Jakobi, Amandine Colson, Ruth Schilling: Communicating conservation challenges in exhibitions at the German Maritime Museum VIII,45 - 56
17. Tractors
- Tomasz Dzikowski: Collections of SAM agricultural tractors - maintenance, repairs and start-up of exhibits. Some theories and practical conclusions

II,105 – 118

- Damian Budzyna, Krzysztof Szaj: Regeneration of a Lanz Bulldog HR2 – possibilities and limitations IV,111 - 114
- Tomasz Dzikowski: Agricultural, industrial and automotive machinery - between a destruct and a demonstration of work IV,179 – 190
- Rafał Rosolski: Various aspects of carrying out demonstrations using historical agricultural machinery VIII,246 - 250

18. Trams

- Piotr Leszczyński: Hopeless cases - to save or not to save? VIII,225 -234

IV. Biological hazards to the exhibits:

1. Microorganisms

- Joanna Karbowska-Berent, Ludmiła Czajkowska-Wagner: Possibilities of using essential oils to protect paper objects against microorganisms VI,32 – 39
- Bogumiła J. Rouba: Climate issues and the safety of the collections VI,191 – 208

2. Ants

- Alicja Kuberka, Stanisław Dziegielewski: *Camponotus ligniperda* – hazard for historical timber constructions I,23 – 30

3. Glony

- Paulina Kryg: "Cultural heritage..." project - conservation issues of open-air objects VII,123 – 135

4. Fungi

- Wojciech Kokociński, Alicja Kuberka: Use of pilodin for strength assessment of historic buildings and wooden structures V,311 – 317
- Paulina Kryg: "Cultural heritage..." project - conservation issues of open-air objects VII,123 -135

5. Insects

- Adam Krajewski: The threat to Polish museum collections - insects I,50 – 70
- Wojciech Kokociński, Bartłomiej Mazela: Threats from certain species of the vespidae for wood products exhibited in the open air IV,39 – 42
- M.A. Gretel Evans: Dilemmas of Pest Management within Transport and Technology Collection at Glasgow Museums IV,115 – 122
- Markéta Šimčiková, Antonin Šimčík: Possibilities of insecticide methods for library and museum collections with the use of a multifunctional vacuum chamber and oxygenless box IV,210 -219
- Paulina Kryg: "Cultural heritage..." project - conservation issues of open-air objects VII,123 -135

V. Natural hazards to the exhibits:

1. Climate

- Bogumiła J. Rouba: Climate issues and the safety of the collections VI,191 – 208
- Piotr Sworzeń: Influence of atmospheric conditions on the preservation of the historic fountain complex at the Donnersmarck Palace in Świerklaniec VI,224 - 250

2. Corrosion

- Aleksandra Gralińska-Grubecka: Corrosion processes and preventive maintenance of reinforced concrete sculptures VI,40 -48
 - Dariusz Starkowski, Wiesław Zwierzycki, Łukasz Wojciechowski: Selected problems and methods of corrosion prevention on the basis of road transport vehicles VI,61 -87
3. Water
- Bogumiła Rouba: Moisture as a problem in the protection of museum buildings and collections VII,35 - 58

VI. Engineering facilities:

1. Roofs
- Dominik Mączyński: Recognition of the historical value of old roof structures III,63 – 70
2. Fountains
- Zbigniew Karolczak, Wojciech Kokociński: Archaeological research at the Mars Fountain in the Old Market Square in Poznań II,40 – 48
 - Piotr Sworzeń: Influence of atmospheric conditions on the preservation of the historic fountain complex at the Donnersmarck Palace in Świerklaniec VI,224 - 250
3. Fortified settlements
- Ryszard Kaźmierczak, Krzysztof Rybka: Conservation and exhibition of a fragment of early medieval rampart of a fortified settlement in Bydgoszcz IV,220 – 225
4. Forges
- Zdzisław Gałęcki: Suburban industrial facility - interior design of a forge II,102 -104
5. Bridges
- Patryk Nisiewicz: Railway flyover in Gorzów Wielkopolski on the route of the Royal Eastern Railway as an active monument of technology improving vehicular and pedestrian traffic VIII,235 -245
6. Castles
- Tomasz Kalinowski: Use of a historic building for exhibition and educational purposes - a case study of the ruins of the Teutonic Castle in Toruń V,278 – 287
 - Marek Tenczyński: Rescue work on immovable objects - a case study of the 13th/14th century castle in Głogówek vs. legal regulations VII,327 -332

VII. Industrial facilities:

1. Gasworks
- Stanisław Januszewski: Historical gasworks in Poland III,22 – 32
 - Piotr Leszczyński: The exhibition "Engineering Portrait of the City" seen through the eyes of the conservator VII,200 -207
2. Canals
- Wioletta Joanna Wrona: Redevelopment of the London canals (work programmes, objectives, social impact) V,202 – 217
 - Stanisław Januszewski: On studies of industrial archaeology V,257 - 277
3. Mines of

- salt
 - ❖ Małgorzata Grupa, Ryszard Kaźmierczak, Przemysław Płóciennik, Krzysztof Rybka: Conservation of monuments presented at the exhibition "Solno 1" from Jan Kasprowicz Museum in Inowrocław V,70 - 76
- coal
 - ❖ Zbigniew Barecki et al.: Main Key Hereditary Adit - report on the latest research III,33 – 40
 - ❖ Piotr Sworzeń: Problems with the maintenance of historical machines V,49 – 69
 - ❖ Stanisław Januszewski: On studies of industrial archaeology V,257 – 277
 - ❖ Barbara Siedlecka: Hibernation of historical objects and biological threats - historical buildings of the Katowice Coal Mine on the current premises of the Museum of Silesia in Katowice VI,49 - 60
- 4. Water systems
 - Wojciech Kokociński: Investigation and conservation of wooden elements of the Poznań water pipeline from the 16th and 17th centuries II,32 – 39
 - Mariusz Fejfer, Magdalena Zborowska, Włodzimierz Prądkowski, Artur Tritt, Szymon Krakowski: Examination and attempted preservation of fragments of a wooden water supply system from Żnin V,85 – 97
- 5. Industrial plants
 - Lesław Cześnik: The Exploseum - a dark past. What is its future? VII,178 – 199
 - Piotr Sworzeń: Historical Match Factory in Częstochowa - problems of maintenance and presentation of work of a set of machines and equipment of the match production line VII,271 -295

VIII. Rural architecture

1. Cemeteries
 - Marek Kołyszko: Conservation of historical gates of village cemeteries VII,251 -262
2. Windmills
 - Jan Święch: Do machines have a soul? On the personification of wind mills III,11 – 21
 - Wiesława Chodkowska: Renovation of the Wodzian windmill in the Folk Architecture Museum - Ethnographic Park in Olsztynek V,111 – 130
 - Filip Tomaszewski, Jarosław Jankowski: Maintenance of historic windmills in operation - selected conservation issues VIII,265 -285
3. Granaries
 - Antonina Żaba: Report on granary exploitation in the Toszecko-Gliwicki region V,229 -244
4. Beehives
 - Paulina Kryg: "Cultural heritage..." project - conservation issues of open-air objects VII,123 -135

5. Windmills

- Jan Świątek: Do machines have a soul? On the personification of wind mills
III,11 – 21
- Wiesława Chodkowska: Renovation of the Wodzian windmill in the Folk Architecture Museum - Ethnographic Park in Olsztynek V,111 – 130
- Filip Tomaszewski, Jarosław Jankowski: Maintenance of historic windmills in operation - selected conservation issues VIII,265 -285

IX. Art works:

1. Paintings

- Ewa Świąćka: Paintings, sculptures and other objects. Maintenance and care of collections IV,21 - 29

2. Portraits

- Urszula Bauman: A complex of portraits of the Rifle Society Kings from the Leszno District Museum. Problems of conservation and interpretation V,21 -34

3. Sculptures

- Ewa Świąćka: Paintings, sculptures and other objects. Maintenance and care of collections IV,21 – 29
- Aleksandra Gralińska-Grubecka: Corrosion processes and preventive maintenance of reinforced concrete sculptures VI,40 -48
- Maksymilian Kapalski: The importance of conservation in the creation of a museum exhibit - a case study of the stone sculpture of the Madonna from the Old Market in Cieszyn VII,243 -247

X. Archaeological objects:

- Leszek Babiński: Sweet maintenance of wet excavated wood - option, alternative or necessity I,7 – 22
- Magdalena Zborowska, Bogusława Waliszewska: Chemical analysis in excavated wood testing III,77 – 90
- Ryszard Kaźmierczak, Krzysztof Rybka: Conservation and exhibition of a fragment of early medieval rampart of a fortified settlement in Bydgoszcz IV,220 – 225
- Aleksandra Rowińska, Władysław Weker: The role of conservation in the research process of archaeological monuments IV,232 – 238
- Władysław Weker, Maria Magdalena Weker: Subjectivity in the conservation of archaeological objects IV,255 – 263
- Aneta Maty: Exploration and conservation of poorly preserved pottery - a case study of the vessels of the Bogaczewska culture - site Czerwony Dwór XV V,13 – 20
- Marek Kołyszko, Dariusz Subocz: Archaeological paper - conservation and examples of museum exhibition systems V,77 -84
- Marek Kołyszko: The conservator's cooperation in museum projects of display of archaeological monuments V,194 – 201
- Bartłomiej Mazela, Magdalena Broda: Use of alkoxy silanes in the preservation of archaeological timber VI,137 – 142
- Magdalena Broda, Bartłomiej Mazela: Assessment of the state of preservation of archaeological wood extracted from Lake Lednickie VI,143 -152

- Aleksandra Rowińska: Preservation of movable archaeological monuments - legal and non-legal conditions VI,281 – 289
- Maria Kamińska-Kuźma, Piotr Wilczyński: Erazm Majewski's *Tips for preserving ancient objects*. A look at the precursor figure VII,25 – 34
- Aleksandra Rowińska: Problems of stability of iron archaeological monuments - a case study of the collection of the State Archaeological Museum in Warsaw VII,208 – 214
- Joanna Słońska, Anna Zięba: Issues of organization and complexity of activities in the development and conservation of archaeological monuments from 1967 excavations VIII,11 -17
- Irena Jagielska: Use of freeze-drying for the conservation of archaeological objects of organic origin VIII,172 - 177

XI. Arts and crafts:

- Maria Rudy: Exposition problems of artefacts in the light of conservation requirements V,158 – 172
- Maria Rudy: Organic matter in objects of artistic craftsmanship - their conservation and restoration VIII,72 -96

1. Pottery

- Maria Rudy: History of museum stone and ceramic objects; their significance for contemporary research and conservation work VI,209 – 223

2. Horse trappings

- Dorota Jutrzenka-Supryn: An historical object or a utility item? Horse-riding harness - selected conservation issues VII,67 -83

XII. Conservation means:

1. Organosilicon compounds

- Bartłomiej Mazela, Magdalena Broda: Use of alkoxy silanes in the preservation of archaeological timber VI,137 – 142
- Magdalena Broda, Bartłomiej Mazela: Use of methyltrimethoxysilane in stabilizing wet archaeological timber VII,112 – 122
- Bartłomiej Mazela, Magdalena Broda: Use of alkoxy silanes in the preservation of archaeological timber VI,137 - 142

2. Fumigation

- Alicja Kuberka: Fumigation of historical objects with neutral gases II,70 – 75

3. Impregnates

- Grzegorz Cofta: Specificity of historical wooden objects in the open-air museum, protected by impregnations VI,9 - 21

4. Resin glues

- Anna Jaszczur, Izabela Modzelewska, Agnieszka Kokoszka: Effects of the addition of starch and resinous adhesive on the biodegradability of paper products made from bleached deciduous sulphate pulp IV,201 – 209

5. Oxygenless box

- Markéta Šimčíková, Antonin Šimčík: Possibilities of insecticide methods for library and museum collections with the use of a multifunctional vacuum chamber and oxygenless box IV,210 -219
- 6. Vacuum chambers
 - Markéta Šimčíková, Antonin Šimčík: Possibilities of insecticide methods for library and museum collections with the use of a multifunctional vacuum chamber and oxygenless box IV,210 -219
- 7. Freeze-drying
 - Irena Jagielska: Use of freeze-drying for the conservation of archaeological objects of organic origin VIII,172 - 177
- 8. Mowilith LDM 7667
 - Bartłomiej Mazel, Patrycja Hochmańska, Jakub Słomski: The use of Mowilith LDM 7667 resin to strengthen historical wood III,71 – 76
- 9. Oils
 - Łukasz Wojciechowski, Wiesław Zwierzycki, Dariusz Starkowski: Problems of ageing of lubricant oils VI,105 -116
- 10. Starch
 - Anna Jaszczur, Izabela Modzelewska, Agnieszka Kokoszka: Effects of the addition of starch and resinous adhesive on the biodegradability of paper products made from bleached deciduous sulphate pulp IV,201 – 209
- 11. Varnish
 - Simona Škorja: Consequences of the Rome Guidelines on Varnishing – Conservation Realities Eighty-Four Years Later VI,88 - 104
- 12. Gels
 - Jolanta Czuczko, Aleksandra Cybul: Gellan gels as an alternative in the cleansing of historical objects on paper grounds VII,84 -98
- 13. Resins
 - Bartłomiej Mazel, Patrycja Hochmańska, Jakub Słomski: The use of Mowilith LDM 7667 resin to strengthen historical wood III,71 – 76

XIII. Pilodyn:

- Wojciech Kokociński, Alicja Kuberka: Use of pilodin for strength assessment of historic buildings and wooden structures V,311 - 317

XIV. Conservation and restoration workshop (building):

- Gabriela Obručková, Markéta Šimčíková: New workplace for conservation and restoration of the Wallachian Open-Air Museum in Rožnov pod Radhoštěm IV,226 -232
- Andrew Howe, Jacek Wikło: The Riverside Museum, maintenance of technical objects - problems and maintenance workshop for objects exhibited in a non-standard way V,288 -296
- Tomasz Dzikowski: Organization and management of conservation in the Radom Countryside Museum - a new conservation workshop in the Museum VI,266 -275

XV. Research programs:

1. Przemysław Wojciechowski: Aims and tasks of the government program: *Acid paper - mass rescue of endangered Polish library and archive resources* I,99 – 114
2. Edwin A. Wilbik: DiZO Application – Documentation and Management of Facilities and Objects VII,19 – 24
3. Magdalena Broda, Bartłomiej Mazela: Cultural heritage - search for modern means and methods of conservation of historical wood – an interdisciplinary research project VII,99 -111
4. Paulina Kryg: "Cultural heritage..." project - conservation issues of open-air objects VII,123 -135

XVI. Other topics:

1. Museum warehouses
 - Bogumiła Rouba: Drawers - problems of storing museum collections V,297 -298
 - Karolina Furykiewicz: Ethnographic objects - problems of storage, transport and protection of unusual objects VII,154 - 161
