**I PRZEMYSŁU ROLNO-SPOŻYWCZEGO
W SZRENIAWIE**

Szreniawa, 14 May 2020

Dear Sir or Madam

Taking into account the recent epidemiological situation in our country, following the recommendations that have reached us, I am forced to postpone the 9th International Conservation Conference in the series Problems of Museums related to the Preservation and Conservation of Collections. Planned for October 7-9 2020, the conference will take place next year. The exact date will be determined later. The difficulties we encounter in organizing this event, especially given the international nature of the Conference, resulting from the restrictions introduced to prevent the spread of coronavirus, effectively prevent the preparation of the meeting in its current form. The well-being of our guests has always been of the utmost importance to us, therefore I am deeply convinced that the decision I have made is the right one and will enable us to meet in "better times". Nevertheless, I would also like to assure you that despite the change of the date of the Conservation Conference, we are continuing our call for applications and I cordially invite you to submit one.

Yours faithfully

DYREKTOR
